

Shasta Head Start Web Planning Process Parent Instructions

Greetings, Shasta Head Start families! As part of SHS's commitment to parent participation and home/school connections. We invite you to add your ideas to our monthly lesson planning Web.

In the center of the Web will be the theme/study for your child's classroom for the next month. Please add ideas that you would like your child to learn to the Web. Around the outside of the Web are subject areas for you to add your ideas. You may also submit your ideas through Learning Genie and your teacher will add them to the Web.

Web Subject Areas:

- Approaches to Learning: Manages emotions, follows classroom rules and routines, shows interest and curiosity
- Social and Emotional Development: Positive relationships with adults and peers, cooperative play with others, expresses and recognized emotions
- Foundational Language Development: Understands and responds to communication from others, attends to communication from others, interest in books, rhyming, and songs
- Math and Science: Compares and categorizes, playing with counting, curious about the natural world
- Physical Development: Crawling, walking, running, jumping, balancing, grasping,
- Health: Feeding, handwashing, safety
