

## SUNSHINE LIQUI-ZYME for Use with EZ-D Dilution System

United 455S **SUNSHINE LIQUI-ZYME Odor Eliminator** is packaged in special ½-gallon containers for use only with United's **EZ-D Dilution System**. This proprietary packaging design prevents spills of concentrate and controls dilutions so you get the right mix of product every time...no over or under-diluting. This assures both safety and economy of use.

**SUNSHINE LIQUI-ZYME Odor Eliminator** features an Earth Smart® formulation that is safer for both people and the environment. It contains no phthalates, no VOCs and no NPEs. Targeted enzymes go right to the source of the odors to eliminate them...not just cover them up, while the Sunshine scent will immediately freshen any malodorous area.

### SUNSHINE LIQUI-ZYME eliminates tough odors in:

- Washrooms
- Locker Rooms
- Smoking Rooms
- Hallways
- Elevators
- Buses
- Garbage Chutes
- Patient Rooms
- Kennels
- Drains
- Hotels
- Squad Cars
- Dorm Rooms
- Dumpsters
- And more...

### DIRECTIONS FOR USE IN EZ-D DILUTION SYSTEM

1. Remove cap from ½-gallon concentrate bottle.
2. Insert bottle into EZ-D Dilution System until it clicks into place.
3. Product is now ready to dispense. Using cold water through the Dilution System, press the right dispenser button to fill quart bottles or press the left button to fill mop buckets or pump-up sprayers with properly diluted product. As a space spray, set the sprayer at the broadest setting and spray in unoccupied areas. Add to mop water to freshen as you mop.
4. 64 ounces of concentrate will make 40 quarts of cleaner.
5. When finished dispensing product, remove concentrate cleaner from EZ-D Dilution System, replace cap and place in storage rack.
